

International Workshop “Shapes and Dynamics of Atomic Nuclei: Contemporary Aspects” (SDANCA-15)

**8-10 October 2015, Sofia
Bulgaria**

Workshop statistics

- Number of participants > 43 (registered)
- 14 countries: China, France, Germany, Greece, India, Israel, Japan, Poland, Romania, Russia, Turkey, United Kingdom, United States and Bulgaria
- 34 talks: microscopic theory=9, group theory=8, collective theory=8, experiment=9, interdiscip=1

Performance

- Subjects alignment: very good?
- Discussion sessions: successful experiment?
- Private discussions: perhaps limited ...
- Free time & social events: limited ...
- Solutions: limited number of talks? Posters?
Increasing the length of the Workshop?

What about the future?

- Possible future issues of SDANCA or something similar?
- How often?
- Where?

Manuscripts Submission

- Deadline extension: **31st of October** (no further extension possible!!!)
- If your attachments exceed 1MB:
Nikolay.Minkov@theo.physik.uni-giessen.de

Posting of slides

- There is a suggestion that we post the files of the talks presented on the Workshop web site
- Colleagues who are not happy with that should inform us to the contact e-mails by **16 October**
- Colleagues who want to provide corrected versions should send the file by **16 October** by e-mail:

Nikolay.Minkov@theo.physik.uni-giessen.de

THANK YOU AND SEE YOU AGAIN!
