

International Workshop “Shapes and Dynamics of Atomic Nuclei: Contemporary Aspects” (SDANCA-15), 8-10 October 2015, Sofia, Bulgaria

SECOND ANNOUNCEMENT

Dear Colleagues,

On behalf of the Organizing Committee of SDANCA-15, I would like to thank all of you for accepting to attend the Workshop. Currently we have registered 45 participants and collected 35 abstracts for talks to be presented on the Workshop. You can see the list of participants on our web page: <http://ntl.inrne.bas.bg/events/sdanca15/listp.php> . Also there you can download the abstracts of the talks by clicking on the titles. Here we would like to announce the following details.

Travel schedules: In order to fix all reservations in the hotel of the Bulgarian Academy of Sciences as well as to arrange the Workshop program considering any possible constraints we need information about your **exact arrival and departure times**. Therefore, we kindly ask those of you who have not yet sent us this information to do it as soon as possible. We believe that reaching the hotel from Sofia airport is quite convenient, as explained in the first announcement, so that you can arrange it easily. In case of special circumstances, late flights etc., you may let us know and we can arrange to help or advise you how to proceed.

Contributions submission: The Workshop contribution manuscripts will be published in the [Bulgarian Journal of Physics](http://www.bjp-bg.com/) (BJP). The BJP LaTeX style package is available on the journal web page <http://www.bjp-bg.com/> together with the instructions for authors. Also it can be downloaded from the Workshop web page. Note that it differs from the abstracts template. The following new details appear:

- The BJP editors suggest to include the contributions into a **regular** December 2015 issue instead to produce a special issue (supplement).
- To realize the above possibility, all manuscripts should pass a **refereeing procedure** organized by the Workshop chairman in co-operation with the BJP editors.
- To meet the aim of 2015 publication we require that all manuscripts are **submitted** in a term **starting by now** and **not later than** the closing of the Workshop – **10-th of October**. The refereeing of each manuscript and the subsequent communication with authors, including revisions, will be proceeded immediately after receiving the material without waiting the collection of all manuscripts.
- Due to the large number of requested reports and to fit the standard BPJ volume size we have to impose a **limitation of 10 pages** (in the BPJ style) for each contribution manuscript.
- The contribution files have to be sent with copies to the both contact addresses: Nikolay.Minkov@theo.physik.uni-giessen.de and nminkov@inrne.bas.bg . This is

needed because of continuing problems with the latter (host institute) e-mail address. The files should include the **LaTeX source** and **EPS figures** (if available). Using ZIP or RAR archives is possible.

- The above details apply for all contributions **presented on the Workshop**. For manuscripts submitted without attending the Workshop a decision will be made by the editors after the closing (10 Oct). If accepted they may be directed for publication in further BJP issues.

We shall provide you information about the program, fee payment details etc. in further communications.

With kind regards,

Nikolay Minkov
Chairman of the SDANCA-15 Organizing Committee
