

Excursion to Melnik and Rozhen Monastery

Melnik is the smallest and one of the most romantic towns in Bulgaria. Situated in the south mountain, it is only 20 kilometers away from the spa resort in the town of Sandanski-the most up-to-date on the Balkans-and 186 kilometers from Sofia. Eventful and turbulent history, amazing natural scenery, healthy air, fine architecture, preserved works on ancient crafts, wines that are famous abroad. These are the things which made Melnik popular and attract to it tourists from all over the world.

The Rozhen Monastery of the Nativity of the Mother of God is the biggest monastery in the Pirin Mountains in southwestern Bulgaria. It is one of the few medieval Bulgarian monasteries well preserved until today.
